

# MEDICAL EXPERT TRAINING IN NBI ENDOSCOPY IN THE MANAGEMENT OF THE UADT TUMORS

**JUNE 13/15, 2018 GENOVA**

**APPLY  
NOW**

## → INTRODUCTION

**Prof. Giorgio Peretti**  
Otolaryngology  
Head and Neck Surgery  
Policlinico San Martino,  
Genoa, Italy

**Prof. Cesare Piazza**  
Otorhinolaryngology  
Head and Neck Surgery  
Fondazione IRCCS,  
Istituto Nazionale dei Tumori  
Milan, Italy

In the last few years NBI technology, which is already widely used in various endoscopic applications, has proved to be useful also in ENT medicine and in the pre-operative, intraoperative and post-operative staging of patients affected by squamous cell carcinoma in the head and neck area.

This theoretical and practical course is a valid mean for quickly learning how to interpret the vascular pattern typical of neoplastic and preneoplastic lesions. It also aims at interpreting the physical characteristics, methods and diagnostic advantages of this

technology both by means of theoretical lessons and practical applications in the operating theatre and in the consulting room.

## → CONCEPT

The main idea of these advanced courses is a peer-to-peer approach. With having both possibilities, letting a smaller group join in the OR as well as establishing a real-time, high quality video transmission of larynx surgeries into the lecture room with allowing vivid communication between audience and Prof. Peretti and Prof. Piazza, questions can be asked immediately. In addition to that, on afternoon of day one and two you will have the chance to get a clinical studies update by experiences made with NBI in laryngology as well as get an clinical study update by the presentations of Prof. Peretti and Prof. Piazza.

## → FACULTY

Prof. Giorgio Peretti  
Genoa, Italy

Prof. Cesare Piazza  
Milano, Italy

## → GENERAL INFORMATION

### Registration and Registration Fee

Please contact your local Olympus representative

### Training Location

Centro Simulazione Avanzata di Genova  
Via Pastore 3, Azienda Ospedaliera Universitaria, San Martino  
Genova, Italy

### Hotel Information

We have arranged a hotel for you and will provide you with the details before the beginning of the Medical Expert Training

### Further Information

Should you require further information, please contact your local Olympus representative.

→ AGENDA

**Day One: 3.00 - 6.00**

Welcome and Introduction

-Technology and principles of NBI

- HDTV-NBI evaluation of the UADTs, how I do it.  
Tricks and tips

-The "biologic endoscopy" concept in the evaluation of the UADTs tumors with particular emphasis on laryngeal cancer

- The role on HDTV-NBI in the evaluation of surgical margins

- The role of HDTV-NBI in the identification of primary tumor in SCCUP

End of Day one

**Day Two: 8.00 - 5.15**

Live surgery

Visit to the ENT office

Live surgery

- The "biologic endoscopy" concept in the evaluation of the oral cavity tumors

- Results of HDTV-NBI studies for oral cavity and oropharynx

- Results of HDTV-NBI studies for larynx and hypopharynx

End of Day two

**Day Three: 8.00 - 3.30**

Live surgery

Visit to the ENT office

Live surgery

Final Discussion and conclusion

End of the Medical Expert Training and departures
