

LETTER OF GRATITUDE

Dear Magnifico Rettore,
Direttore Generale,
Dipartimento Scienze Chirurgiche e Cliniche Integrate,

On behalf of “Medicos Bolivianos Online” an non-governmental humanitarian organization formed by Bolivian physicians home and abroad that joined forces to faith against the Coronavirus pandemic and its devastating effects to our nation, our people and healthcare workers in Bolivia.

We would like to extend our immense gratitude to Professor Paolo Pelosi for participating in this humanitarian work by joining one of our medical webinars and shared the experience of Italy and the hospital in providing the best professional and scientific treatment to critical patients with Covid-19 in Italy.

Professor Paolo Pelosi delivered an outstanding webinar master class on the 12 of September 2020.

Furthermore Professor Paolo Pelosi continued to help our country in helping us to connect with Dr Borsari from DIMAR, who kindly donated 5 non-invasive mechanical ventilation devices or oxygen hoods for treatment of Covid-19 to Bolivia.

The oxygen hoods already arrived in Bolivia and this Friday the company DIMAR will provide us a remote training and orientation to the rural hospital in Yotala, Sucre Bolivia.

Once again, we would like to thanks the University and Hospital of Genova for nurturing professionals with humanitarian empathy like Professor Paolo Pelosi.

WEBINAR INTERNACIONAL DE
SALUD SOBRE BOLIVIA Y EL
#COVID-19
